

IBRO and the DARGUT AND MILENA KEMALI FOUNDATION are pleased to announce:

THE 2nd KEMALI-IBRO MEDITERRANEAN SCHOOL OF NEUROSCIENCE:

6-13 July 2011

“Invertebrate Neurobiology, Neuroethology and Plasticity”

Stazione Zoologica “Anton Dohrn”, Villa Comunale, Naples, Italy

The School will focus on the importance, utility, and advantages that invertebrate experimental systems bring to the Neurosciences, touching upon areas such as learning and memory, neuropsychiatric illness, behavioral plasticity, sensory function, and neuromodulation. Sessions also will be devoted to developing skills such as preparation of grant applications, presenting research results, and establishing a laboratory.

Faculty:

Euan Brown (Stazione Zoologica, Naples, Italy)

Tom Carew (UC-Irvine, U.S.A.)

Ron Davis (Scripps Research Institute Florida, U.S.A.)

Graziano Fiorito (Stazione Zoologica, Naples, Italy)

John Hildebrand (Univ. of Arizona - Tucson, U.S.A.)

Lindy Holden-Dye (Univ. of Southampton, U.K.)

Abdul K.H. Mohammed (Karolinska Institute, Stockholm, Sweden)

Hans-Joachim Pflüger (Free University of Berlin, Germany)

KEMALI-IBRO
MEDITERRANEAN
SCHOOL OF NEUROSCIENCE

The Kemali-IBRO Schools are aimed at young neuroscientists from Mediterranean countries, that are at an advanced stage of their Ph.D. studies or doing post-doctoral research.

Please apply online through www.ibro.info **no later than 11 March 2011.**
