ANNUNCI DI CARATTERE GENERALE

Neuro-Zone srl fornisce per scopo di ricerca colture primarie di neuroni, astrociti e microglia provenienti da diverse aree del sistema nervoso centrale in formati pronti all'uso (cellule congelate, estratti di mRNA, omogenati cellulari, cellule fissate per immunocolorazioni). Eseguo inoltre test (biochimici, molecolari e funzionali) di composti di nuova sintesi su colture primarie del sistema nervoso centrale. Per tutti i soci SINS, Neuro-Zone offre per tutto il 2009 uno sconto pari al 25% sul prezzo di listino dei propri prodotti e servizi. Per ulteriori informazioni o per richiedere un prodotto scrivete a info@neuro-zone.com oppure visitate il sito www.neuro-zone.com

The European Journal of Neuroscience, has two new editors in chief: **Jean-Marc Fritschy and Martin Sarter**. Please see a letter of the new editors in chief that published on the FENS website.

PROSSIMO CONVEGNO SINS - MILANO 2-5 Ottobre 2009 - CALL FOR SYMPOSIA

E' aperto (**deadline 1 Dicembre**) il "call for symposia" per il prossimo Congresso Nazionale della Società di Neuroscienze che si terrà a Milano il prossimo anno (2-5 Ottobre).

<http://www.sins2009.it/Default.aspx?c=welcome>

NENS

La FENS ha uno speciale programma per i dottorati ed i masters in Neuroscienze che sono organizzati dalle Società federate (NENS). L'elenco dei dottorati registrati si trova a questa pagina

<http://fens.mdc-berlin.de/nens/>

Controllate se il vostro dottorato e' nell'elenco, nel caso non ci fosse seguite le istruzioni per rendere note le vostre iniziative.

Ricordo anche che la NENS pubblica una Newsletter che si puo' trovare a

<http://fens.mdc-berlin.de/nens/newsletter/>

BANDI RICERCA - BANDI PREMI

PROGRAMMA ARMENISE-HARVARD "PhD"

Il programma "PhD" per giovani italiani laureati in discipline scientifiche, che vogliono

ottenere il dottorato di ricerca presso il Dipartimento di Scienze Mediche (DMS) della HMS, consiste in un finanziamento a candidati selezionati per l'ammissione al DMS, per un periodo di 2 anni.

Termine ultimo per la presentazione delle candidature è entro la prima metà di Dicembre 2008.

Ulteriori informazioni e i moduli di candidatura per tutti i programmi sono disponibili all'indirizzo <http://www.hms.harvard.edu/armenise>

=====

Luciano Martini Prize for Young Investigator in Neuroendocrinology

Starting from the **5th edition of the Steroids and Nervous System meeting** the organizers will entitle a prize to Luciano Martini, one of the fathers of Neuroendocrinology. Application for the Prize will be presented by a Senior scientist that will send to the Organizing Committee of the International Meeting on Steroids and Nervous System a support letter illustrating the personality of the candidate (under 35 years-old) and his/her contributions to the field of the interactions of steroids and nervous system. The proposal should be accompanied by a short curriculum of the candidate, the list of the publications relevant to the specific field and a copy (in pdf format) of the papers. PhD thesis, manuscripts or submitted manuscripts will not be considered.

Applications will be accepted only if the candidates and sponsors will attend to the meeting (presenting a poster or a short communications). Applications for the prize should be submitted at the same time of the deadline for submitting the abstracts for the meeting.

The committee that will select the winner is formed by Cheryl Frye, Guy Mensah-Nyagam and Dave Grattan (editor of J. Neuroendocrinology), and will be chaired by Luciano Martini. The winner of the prize will present a short summary of his/her researches (no more than 15 minutes) as a formal lecture during the social dinner. In addition the winner will submit a review paper to Journal of Neuroendocrinology that, after peer review, will publish the contribution in the special section Young Neuroendocrinologists Prize Review.

Deadline: December 15th

=====

Job announcement

PhD position is available for applicants with M.Sc or equivalent at the newly established **Centre for Integrative Neuroscience (CIN) in Tübingen, Germany**. A main interest of the Lab is to understand the role of neuron-glia interaction in the pathophysiology of demyelinating disorders.

Applications are welcome from motivated candidates who have strong background in neuroscience. Candidates with experience in immunohistochemistry and/or in situ electrophysiology (patch-clamp) are particularly encouraged to apply.

Fluency in English is required.

The position is funded from the German Excellence Initiative Programme and is for 3 years. The selected candidates are expected to start their work in Tübingen in February-March 2009. Salary will be according TV-L E13/2.

Applications should include a CV, the academic achievements, a brief statement of research interests including your past experience and names of at least 2 referees. Incomplete applications will not be considered.

The University of Tübingen strives to promote equal opportunities in science and is committed to increasing the percentage of female scientists in research. Qualified female candidates are thus strongly encouraged to apply.

Maria Kukley, PhD
